This is a remix of:

<https://www.thingiverse.com/thing:3644062>

I liked the design of the original bracket, but wanted to try and make it a little smaller. This design is about 50% scale of the larger bracket. Included is both a 2 bolt and 4 bolt version. Bolt holes are for a 5mm x 12mm Button Head hex bolt to be used with matching T-nuts. Two bolts should hold just fine, but for added security, I also included a 4 bolt version.
