Summary

This is a cupholder which fits Red bulls and 12oz soda cans. Originally designed for 3inch diameter bottles.

This cup holder fits Redbull cans within it through a special hole in the interior. The cup holder fits within a Pegboard with .25+ holes with a 1 inch center distance between the holes. I recommend an infill of %20+ and support for the pegs. The pegs are fragile so they should be handled with care. Feel free to remix and make any necessary adjustments for special Pegboard or bottle sizes.
