Summary

Prusa MINI Spot LED Light with IKEA KAPPLAKE

[3D Printers](#) > [Prusa Parts & Upgrades](#)

Tags: [upgrade](#) [light](#) [lamp](#) [mini](#)

This is a remix of [Spot LED by AJK](#). AJKs model is solid, but I wanted some extra protection against glare from the spot as my printer is elevated from my desk. I solved this by increasing the height of the “skirts” around the spotlight, in my opinion this has negligible effect on the spread of light from the lamp.

I also added a different system for cable management.

This remix is based on

The Prusa MINI IKEA KAPPLAKE Spot LED Light Upgrade

by AJK
