Quick holster for the Novritsch SSP5

No retention mechanism, meant only for storing the pistol between games when used as a primary or with a m4 adapter like I am. Of course Novritsch sells these in metal which will hold up better but for my use-case I thought I'd just print it.

Used with Novritsch holster, molle gen 2:

<https://eu.novritsch.com/product/holster-molle-mount-gen2/>
mounts with a little longer M6 screw, and Nut.

Comes with a plain version and one with my shameless plug on it.

UPDATE 2024-05-02

Uploaded V2 version, smaller and more compact solution.
