I needed cupholders for the middle seats of my Tesla Model X. This fits the 2020 6-seater seats and hooks onto the seat next to the seat belt holders as shown in the picture. The cupholder size is designed to fit a 32oz or 40oz Hydroflask.

I used Prusaslicer and created a support enforcer just for the hook part, no other supports. Printed at 0.3mm with Prusament PETG.
