Summary

low profile SD card case for up to 4 SD cards

[Gadgets](#) > [Photo & Video](#)

Tags: [case](#) [sdcard](#) [photography](#) [sdcardcase](#)

This SD card case can hold up to 4 SD cards. There are cut-outs in the corners for the magnetic cover, each side requires four **5x1mm magnets** or **5x2mm magnets**. The measurements are **69 x 90 mm** and the case is only **7.5 mm thick**.

Tolerances

- magnet holes: 0,3mm
- SD cards: 0,5mm

For people who mostly work with micro SD cards, I also have a [model](#) with four micro SD cards and one normal SD card in the same low profile design.
