updated 2. 4. 2024 | published 2. 4. 2024

Summary

Undertray for a Gigabyte Monitor. printed with PLA.

[3D Printers](#) > [Accessories](#)

Tags: [tray](#) [monitor](#)

If you have a similar monitor stand, that is a nice way to add extra space to store pens and others.

Made with PLA at 0.2 layer height.
