Summary

Convenient and efficient! No more plate or chopping board to make NACHOS!

This is a convenient little bowl/base that attaches to the bottom of your cheese grater. I made it to fit the cheap one we have most likely from the big department store that begins with a W. Anyway, the bottom measures 81 mm x 105.5 mm if you want to check yours first. It is a perfect fit and stays put while shredding or grating cheese, peels, garlic, and all of your other veggies and herbs.

There are 3 sizes to choose from. The one pictured is the medium and took me about 2.5 hours to print at .48 layer height.
