Summary

Hose clamp is designed to wrap around the water bottle, while the flat horizontal clamps secure a tube of chapstick.

[3D Printers](#) > [Accessories](#)

The hose clamp wraps around 32 oz to 40 oz Stanleys and Hydroflasks. It is recommended to use a more flexible plastic when printing the hose clamp if you want the device to wrap around the handle of the water bottle. The flat clamps are designed to secure a small tube of Aquaphor or other various chapsticks/lip balms. The clamps are compatible with 1/4"-20 x 1" ANSI screws and 1/4"-20 ANSI bolts.
