Summary

Cats are entitled to special spoons--not those nasty human spoons.

This cat food spoon is lavished with cat ears to dig out the tasty morsels that hide in the edges of wet food cans. This luxurious utensil is directly from the official dining set of Professor Lucille Fuzzbutt.

The CatFoodSpoonWithText v5 file is ready for personalizing the spoon in PrusaSlicer with your pet's name.

PLA or PETG filament at 0.2mm layer height works well. Use filaments without much dye, to minimize any potential health risks.
