Summary

Grips for large hands

[Gadgets](#) > [Portable Devices](#)

Tags: [grips](#) [gamepad](#) [rgb30](#)

The model is split into two parts, you have to glue it together after print. It has 5mm holes for dowels. You can print 5mm cylinders, or use 5mm cabinet shelf pegs to position it.

Bottom piece comes in two variants: flattened, that also works as stand, and more classic one
