Summary

Double headphone hook that can screw or stick onto any vertical, flat surface.

[Gadgets](#) > [Audio](#)

My daughter started putting both her headphones and stethoscope on the headphone hook I installed for her at her desk so I created a double hook based on the previous hooks I've done:

<https://www.prusaprinters.org/prints/82866-wall-mount-headphone-hook>

<https://www.prusaprinters.org/prints/82612-shelf-mounted-headphone-hook>

Like the other ones, Fusion 360 CAD file included, most interesting dimensions are parameterized so you can generate different sizes in Fusion 360.

Mesh files included with and without screw holes.

Prints without support on its side.
