### Summary

Ergonomic Wedge for Kensington SlimBlade Trackball with 12.7 degrees tilt

[Gadgets](#) > [Computers](#)

Tags: [stand](#) [mouse](#) [wedge](#) [trackball](#)

Wedge for the Kensington SlimBlade Trackball. The stand applies 4.8 degrees of forward tilt to negate default positive angle of the trackball. Adds 12.7 degrees of sideways tilt for a more ergonomic operating angle. Optional wedge with matching sideways tilt for [gel palmrest](#) included.

Both stands have cut-outs with 9mm diameter and 1mm depth for 3M bumpers or similar non-slip dome feet.

The models are oriented for right handed use. Mirror along x axis for left handed version.
