Summary

clamp for hobby, fixation of the workpiece on the work table

[Hobby & Makers](#) > [Tools](#)

Tags: [woodworking](#) [hobby](#) [carvingtools](#)

When printing, it is necessary to provide a pause for installing the M3 insert nut in the nut and cone. additionally, a 50 mm long M3 threaded stud will be required. When tightening the nut, the cone will enter the cut part of the base and. thereby fixing the clamp on the desktop. An eccentric at the same time, it will rotate easily, which allows the workpiece to be fixed
