## Summary

Fan cover that redirects the warm air coming out of the PSU

[powersupplycover](#) [workspace](#) [keithley](#)

Small fan cover for a Keithley 2231A-3 PSU.  
It will probably also fit on other PSU's from that brand, but not tested.

This cover is usefull when you work in a small space with others, have to stack lab-bench power supplies on top of each other, and don't want the warm air from the power supply blowing in your face.
