Tags: [case](#) [raspberrypi](#) [raspberrypicase](#) [rasberrypizero](#)  
[pizero](#)

added a hole for the I/O pins and widened a hole for a M3x3mm threaded insert to bolt the RPi down using an 8mm M3 bolt.

for printing instructions and endcap to close the case, check out the original model by [@Kyle\\_260544](#).

Have fun printing!

PS: ignore my soldering lol, this was my first time ever
