Tags: [fan](#) [fumeextractor](#)

This is an 80 mm fan box/ fume extractor for soldering and also doubles as a small fan for drying painted figures that I've 3d printed. the base has an opening for a toggle switch as well as a barrel jack for a 5V adapter. Only the base needs supports for the recess on top and the 2 openings. Show me if you print it and let me know if you like it!
