Cap for Kymco Agility 125 scooter.

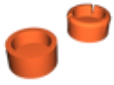

There are two versions in f3d and 3mf file: the one with the cuts was designed for interlocking, but in my tests, it wasn't wide enough.

Nevertheless, it remains stable in position, but for those who want to remix it, they can use the uploaded model to increase the diameter and make it interlock.

Printing settings:

NO BRIM NO SUPPORT 0.4 nozzle 0.2 layer height 60% infill
