A toilet plunger holder!! The g-code for the plunger holder base and lid both have Octogram Spiral selected for top and bottom layers which leaves a nice little design on those layers as an option to just smooth. Also, the base holder has fuzzy skin to give it some style! This item will certainly be a gamechanger for bathrooms across the globe!!!

The g-code is in 0.3 mm DRAFT layer and Generic PLA. STLs and Projects are included if you want to change layer size for greater detail. You can never be too fancy for a toilet plunger!!!
