PESKY PIGEON is a fun and simple board game where players take on the role of bunnies collecting eggs scattered across the game, while avoiding the mischievous pigeon who seeks to steal their eggs! Collect 6 eggs to win! If the pigeon gets 6 first, all bunnies loose!

Players can choose to play in either Normal or Advanced Mode for added challenge.

The boardgame is designed to be easily 3D printed and scaled to a fitting size.

PLEASE READ:

Rulebook is attached as PDF - Download to read how to play.

For the best experience, please scale by at least 25%.

I had to scale it down to be able to print it out in time for the flash contest!

If the game gets any attention and positive feedback, I will continue to improve the game :)

ANY feedback is much appreciated!

This game was designed for my 3 year old son to play, and made for a Flash Contest on printables.com!

Each easter the easter bunny(me), visits our garden and hides eggs to be found. We find a basket and starts the search!

The complexity of the game is also inspired by another favorite boardgame of his, ORCHID, where you throw a dice and collect fruits of your choosing.

I scaled down the boardgame by 25% as my printer isn't the fastest anymore and needed the game ready in at least a Pre-Alpha stage! As this was done for a flash contest, there's still lots of tweaks that can be done for the overall gameplay!

As I'm not an artist I hope someone will remix the game and beautify it!
