This is an adapter for relocating the stock Ender 5 LCD.

I wanted to move the LCD more to the middle of the printer to reduce the printer's overall size, so I designed this adapter to make LCD relocation as easy as possible while reusing stock equipment as much as possible.

Of course you may need to buy a longer IDC cable for the display.

## Print Settings

### Printer Brand:

Creality

### Printer:

Ender 5

**Rafts:**

No

**Supports:**

Yes

**Resolution:**

0.6

**Infill:**

20%

**Filament:** Redline Filament PLA Black

**Notes:**

You can play around with material, resolution and infill. I found PLA with 20% infill to do the job pretty well.

Category: 3D Printer Parts
