Summary

Garmin Stem Mount for 1 1/8 head tube

[Sports & Outdoor](#) > [Outdoor Sports](#)

Tags: [mount](#) [mountainbike](#) [garmin](#) [thingiverse](#)

Version 2:

Built from scratch and bit more rigid. Medium fits on a 31.8 50mm Duo Stem, High fits on a 31.8 40mm Apex Stem.

Since I did not found any short mount that is placing my Garmin in the middle between my ahead cap and my handlebar, I decided to design this one. It is replacing a 5mm Ahead Spacer on a 1 1/8" head tube.

You can find two versions, a medium and a higher one, depending on how you prefer to have your Garmin mounted.

The stem you see on the photos has 50mm lenght and 10mm rise.

The mount is to be used with the original Garmin mount insert.
