Summary

This is my submission for the PrusaPrinters 3D Contest: Halloween 2021

[Household](#) > [Office](#)

I published it in a separate print since I only wanted to participate with this design. I thought that I shouldn't participate with a statue or something like that. That I should participate with something a bit useful. I'm entering just for fun but I'm not expecting to win.

At 7.20 mm you should change the filament to something that you like e.g. dark blue and at 8.20 mm change it to black. Also print it a bit slow.

Here is a guide on how to auto pause the print [Cura: Pause at Height – Simply Explained | All3DP](#)
