### Summary

Custom mounting hardware for Nicrew HyperReef aquarium lights, requires a rimless tank

I got some used Nicrew lights that came without the mounting kit, so I made my own instead of spending \$30 on Amazon. Hopefully these models help someone else save some money too.

Requires 4 machine screws that use the hanging mount holes

Currently supporting:

50W Rimless

More models can be added if someone wants to give me some measurements of the 30W or 100W which I do not have.
