Replacement charging handle for CYMA MP5k

v1 is smaller size (smaller chance to break)

v2 is normal-ish size

Size of a pin hole is kinda small to fit in metal pin, but i only made it there as a reference.

I recommend printing it in size about 101% or something like that, to fit it in tightly without annoying pin insert - easier to change for new one when it breaks. :)

Nozzle: 0.4mm

Layer height: 0.10mm

Infill: 100%

Supports: yes

Material: Prusament PC Blend or anything strong
