### Summary

Loved the original design but I wanted it to be a bit chunkier and with more chamfers.

Loved the original design but I wanted it to be a bit chunkier and with more chamfers. This has taken away some of the flex the original top had and the top now has a tighter fit. I have also included an updated step file as the original provided by Ananords had errors and missing parts like important screw holes. I have included two top plates, one is blank the other has Main, Spotify, Discord, Chrome and Gaming.

Thank you to Ananords for an amazing design and a beautiful kit.
