Summary

Picture I took in Lincoln City, Oregon of the sunset.

[Art & Design](#) > [Other Art & Designs](#)

Tags: [oregon](#) [sunset](#) [hueforge](#)

These are the settings HueForge generated. I used PLA for everything. Had some off brand filament that was not in the list of choices. Using close enough colors should get about the same result.

Print at 100% infill with a layer height of 0.08mm with a base layer of 0.24mm

Filaments Used:

PETG JAYO Black Transmission Distance: 0.3

PETG Overture Digital Blue Transmission Distance: 2.3

PLA PolyTerra Sunrise Orange Transmission Distance: 2

PLA Overture Yellow Transmission Distance: 9.7

Swap Instructions:

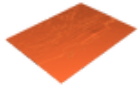

Start with Black

At layer #8 (0.8mm) swap to Digital Blue

At layer #15 (1.36mm) swap to Sunrise Orange

At layer #19 (1.68mm) swap to Yellow for the rest.
