### Summary

An underground cave where your fish can hide but still be viewable from the outside (remix with floor)

This fish tank accessory creates a space under your tank's soil for your pets to hide where you continue to watch them as they play and feed. In this remix I added a floor to the cave to prevent sand from entering from underneath and a lip to help the cave anchor down. Dimensions:

- W 15cm x D 15cm x H 10cm
- 3mm thick walls

Materials: Pick materials that are safe for both your fish and plants. It's usually recommended to use ABS or specific food-safe PLA, and it's often advised to coat the print in a safe epoxy to seal it.
