NOTE: Models have been updated based on feedback. New models (V3) should have less side to side movement on the wheels and on the bed and slightly more range on the tilt of the bed. Also fixed a small issue with the front windshield (V2-V3) and edge of bed (V3-V4).

Flatbed Tow Truck for your FDM vehicles. This tow truck is designed to carry most of your FDM vehicles when they need a tow.

Comes with an articulated flatbed or a sturdier fixed bed version if you're concerned that younger children might break the bed off. The articulated version is quite sturdy so you may want to try it out and see.
