updated 17. 4. 2024 | published 17. 4. 2024

Summary

Remixed the original hook to fit better on 1" pegboards.

[Hobby & Makers](#) > [Organizers](#)

Tags: [pegboard](#) [harborfreight](#) [peglock](#)

The diameter of the hooks, angle of the top hook, and lengths of the hooks are slightly altered to fit 1" pegboards better; specifically the Harbor Freight 48" workbench and generic metal pegboards on Amazon.

It maintains the original 1" spacing and works on all peglock models!

This is my first attempt at 3-d modeling/remixing, I'd love to get some feedback :)

Thanks for looking!

Remix History

v1.2: Upper 'hook' peg diameter reduced to 5.5mm. Lower peg diameter 5.6mm. Pegs are 8mm long off the main body. Spacing and fit is good.

v1.1: Spacing increased 1mm on the upper 'hook' peg. Both peg diameters increased 0.1mm - which was too much for the upper 'hook' peg for both pegboard types. Need to reduce upper 'hook' peg diameter.

v1.0: Fit was good on the metal pegboard but not ideal on the Harbor Freight one. Spacing between pegs was fine, upper 'hook' peg was catching too much. The middle folding section was left alone to allow the piece to work with all peglock models. Peg diameter of 5.5mm.
