Summary

gas tank mounting brackets for a ttr 125 made it for a 2002 but should fit most the fit is really tight but it works

didn't wanna pay \$50 so made my own after lost mine during a tank swap. broke with 50% infill pla in a hard crash so I'm going to try again with 100% infill. Tight fit, have to wiggle the tank to get them both to fit on there but it does fit. Uses M6 bolts
