### Summary

This is a 3d printed top handle in the style of the SmallRig top handle, designed to fit on SmallRig camera cages

[3D Printers](#) > [Accessories](#)

Tags: [camera](#) [handle](#)

This model is designed to fit the NATO rail and use a 3/8"-16 to firmly secure it to the camera cage

This can be fully printed without any supports.

The screw installs loosely into the camera cage first, then the handle slides in and then the plug last, then tighten down the screw.
