Introducing the ultimate addition to your organization toolkit: the custom-designed Gridfinity 3x3x6 bin, specifically engineered to store 25 of your 7g (0.24oz) Elmer's glue sticks. Meticulously designed for efficiency and aesthetic appeal, this bin not only maximizes your workspace but also keeps your glue sticks neatly organized and accessible. Whether you're a craft enthusiast, teacher, or professional looking for a sleek storage solution, this bin is perfect for you.

Crafted with precision, this STL file is ready for you to bring to life with your 3D printer. The bin's dimensions are optimized for a 3x3x6 configuration, making it a versatile component of your Gridfinity system. Its capacity to hold 25 Elmer's glue sticks makes it an essential accessory for anyone in need of organizing small items efficiently.

Not only is this bin practical, but it also adds a touch of sophistication to your desk or workspace. The design emphasizes ease of access and visibility, ensuring that you can grab a glue stick whenever you need it without rummaging through drawers or boxes.
