Introducing the "FluxPastePod 50g - Beeyuihf Edition", a remix of the classic Gridfinity flux holder, now redesigned to perfectly accommodate the Beeyuihf brand 50g flux paste containers. This model enhances your soldering station with a specialized, Gridfinity-compatible pod, ensuring your flux is always at hand, secure, and organized.

The holder's dimensions are meticulously tailored to fit a 56mm Beeyuihf flux paste container, providing a snug and secure storage solution that prevents tipping and spills. The design also features an easy-access opening, allowing you to grab or store your flux paste with ease, enhancing efficiency and cleanliness on your workbench.

Perfect for electronics enthusiasts, hobbyists, and professionals alike, this holder not only streamlines your soldering process but also integrates seamlessly into your existing Gridfinity setup, contributing to a clutter-free and highly organized workspace.
