Elevate your soldering station's functionality and aesthetics with the "TipCleanerTrove 67mm - Gridfinity Remix", a redesigned holder specifically for a 67mm soldering iron tip cleaner. This model seamlessly integrates into your Gridfinity setup, providing a dedicated and stylish spot for your tip cleaner, essential for maintaining the longevity and performance of your soldering iron tips.

Crafted with precision, this holder ensures your tip cleaner is always within reach, enhancing your soldering workflow. The 67mm dimension perfectly accommodates standard soldering iron tip cleaners, offering a snug fit that prevents accidental dislodgement. Its open design allows for easy access, enabling you to clean your tips efficiently without interrupting your work.

Ideal for electronics hobbyists, makers, and professionals, this holder not only organizes your workspace but also promotes a cleaner, more efficient soldering environment. The design is focused on practicality and ease of use, reflecting the needs of modern electronics workbenches.
