Summary

This 3D printable coat hanger, designed with a nautical theme, features two distinct parts

[Household](#) > [Other House Equipment](#)

Tags: [hook](#) [creative](#) [coathook](#) [anchor](#) [coathanger](#)
[maritime](#)

The main body shaped like an anchor and a separate hook base that connects to the top. It needs a screw to mount the anchor to the base. the hole diameter for the screw is 3mm wide. The anchor provides a stylish and thematic way to hang coats, hats, or bags, infusing a maritime charm into any room. The hook base is engineered for easy attachment to walls or doors, ensuring a secure hold. Both components are optimized for 3D printing, allowing for a seamless assembly and a sturdy, functional coat hanger. Ideal for sea lovers or to add a unique touch to home decor, this anchor-shaped coat hanger combines practicality with aesthetic appeal.
