Summary

Got tired of having my slim cans fall over so I adjusted T0b1's genius design to fit Volvo's center-console cupholders.

Fits both the standard 250ml ("Red bull") cans and the standard 330ml ("Coke") cans snugly by flipping the holder over.
Designed specifically to engage nicely with the newer Volvo spring-loaded cup holders but I'd imagine it will work with most cupholders out there.
