Summary

Jungle Speed rugged box made for holding the cards and the totem.

[Toys & Games](#) > [Board Games](#)

Tags: [container](#) [partygame](#) [junglespeed](#)

Modified rugged parametric box made for holding the cards and the Jungle Speed totem.

Lid has an extrusion which ensures that the cards can't fly all over the box if it gets flipped around.

No supports needed just position the bottom and the lid flat on your printing surface.

Quality and infill all up to you. I printed with 0.26mm layer height and 15% infill to make it faster on my printer.

To assemble print bottom, lid and 2 latches. You need 6 M3 30mm screws.
