Wife saw me playing with an idea and said “print one for me.” Then she said “it needs a teapot lid.”

Thus: Rhe's Knobbly Knurled Bumpy Bowl. In three sizes: 100 x 50mm (small) and 180 x 80mm (large), as well as a stack-able 124 x 75mm. Lids for each size included.

I'm printing these in PLA without supports. Slicer might suggest them on the lid, but they really shouldn't be needed: the internal ribs do the job in my tests.
