Summary

IO shield for Asrock B85m Pro 4

[Gadgets](#) > [Computers](#)

Tags: [shield](#) [cover](#) [usb](#) [motherboard](#) [io](#) [comuter](#)

I modeled this shield after the the dimensions of the motherboard. It fits perfectly on the board and in the case. It is a bit bigger on the ports opening than the original metal one but it still looks nice and quality. I have made it after the Asrock B85m Pro 4, but some other Asrock boards may be the same IO so it should work.

If you decide to print it use something more heat resistant like ABS/ASA.

Printed on a Bambulab P1S with ASA at 0.24 height
