### 4/4/24 Update:

I added a better parametric file for Fusion 360 and screenshots of the parameters

### Original Description:

This is my first model I designed in Fusion 360. I designed it for these **chargers**. I made it parametric if you'd like to edit the model to fit your desired charging blocks.

If there you have any suggestions or tips, please let me know.

# Model files

**chargerholdermodel.3mf**

---

**charger-holder-parameters-correct.f3d**

 Fusion file, just change the parameters in the screenshot to fit your needs
