Tags: [table](#) [office](#) [desk](#) [stand](#) [mount](#) [monitor](#)

Legs for a board that serve as a simple shelf or monitor stand when assembled. The model consists of 4 legs and 4 connecting elements. The models are designed for board thicknesses of 16mm, 18mm, 20mm, and 22mm. The width and length can be of any size. In the case of a very long board, the legs can be used as supports. Height: 170mm.

If you need a model for a different width of board, just leave a comment and I'll make it for you.
