Summary

A replacement for the coin tray that includes a magsafe charger.

Tags: [dodge](#) [magsafe](#) [challenger](#)

Heavily remixed an existing design to be a little more functional and leverage a modern charger. I included 3 different stem heights. The shorter ones clear the automatic shifter better but won't work with the larger format phones. These stems were taken from another design I can no longer find, and remixed to use a 3rd party charger instead of a first party one.

Built to use this charger:
