Summary

Just some holders for my pods.

[Household](#) > [Other House Equipment](#)

Tags: [coffee](#) [lavazza](#) [pods](#)

It should fit 12 pods, but some pods are fat.
Normal pods wont have letters but 3mf files will.
No supports needed for normal print but for better quality i inverted sections and use tree supports, they come off easy and leave no marks.

Also included is a tolerance print to check if covers fit well.

i used a little glue to connect tunnel to base
