Tags: [organizer](#) [holder](#) [sd](#) [usb](#) [microsd](#)

Summary

This holder can allocate 8 wide USB sticks, 8 SD cards, and up to 15 MicroSD cards.

Ideal for your desk, to keep your portable storage in a single place when you need them.

It has holes to prevent from dust accumulation, and reduce a little the material used to print it.

This design is an improvement to [USB and SD card holder for wide USB sticks](#); now including better holding for MicroSD at 60 degrees (almost

vertical), while extending space for up to 15 (instead of only 5), and fixed some vector errors.

Print Settings

- Printer:
Original Prusa MINI+
- Rafts:
No
- Supports:
No
- Resolution:
0.2 mm
- Infill:
15%
- Notes:
Printing doesn't need any special adjustment, just print it and enjoy!

Even though it has an upside angle (+60°), shouldn't need any support.

Post-Printing

Recommendation

Attach a foamy, or rubbered sheet on the base so it doesn't slip while in your desk, but remember to maintain holes clear.
