updated 25. 4. 2024 | published 25. 4. 2024

Summary

Quick and dirty TinkerCAD hack to fit in an Ikea Variera 32x13x16 cm shelf and add an extra layer to the top.

Model just fits on the bed of my Bambu Lab P1S.

Printed with Bambu Tough PLA.

(Ignore the print boogers on the front, I had switched to Ludicrous mode and forgotten about it.)

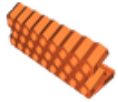

This remix is based on

Gridfinity compatible 17ml bottle paint rack
