stackable storage box with japanese influence

update · added STLs

photos show printed in matte black pla and brick red petg-cf

- 0.16mm layer height
- 20% adaptive cubic infill
- no brims or supports

the top section (in brick red) has different geometry and cannot be added in any other order, the remainder ones can interchange order

3mf includes two plates one with the main compartments and the other with the top compartment/lid

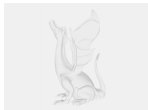

check out the companion [squared version](#)

commercial licence membership available on my [patreon](#)
