Summary

Lightweight bumpers for DJI Avata 2 FPV drone.

[Hobby & Makers](#) > [RC & Robotics](#)

Tags: [drone](#) [propeller](#) [guard](#) [dji](#) [fpv](#) [duct](#) [bumper](#)
[fpvdrone](#) [droneparts](#) [avata](#) [djiavata2](#)

Compatible with propeller shields:

<https://www.printables.com/pl/model/867950-dji-avata-2-propeller-shields>

Print with **PLA**, and secure with cable tie.

- 17.5 g each

Note about left and right files:

They are almost identical. After putting on the left and right cover, the front differs gently from the back. **It is only a visual difference.** The side doesn't matter at all.
