### PFEIFER | Mini Power Whistle

Meet PFEIFER, a tiny but very very powerful pebble-shaped whistle.

It takes only 10g to print and is available in 2 sizes, Regular and Mini, and a variety of tones:

- Regular in mid-tone 2.5KHz
- Regular in high-pitch 4KHz
- Regular in dual tone (2.5KHz + 3.5KHz)
- Mini in high-pitch 4KHz
- Mini in mid-tone 2.5KHz

Our cute rescue dog responds surprisingly well to the 4KHz.

Don't mind the print quality on the pictures.

I live in Taiwan (but I'm French.. long story..) and raining season just

kicked.

It's so humid it's almost impossible to get my prints right.

Anyway...

Happy printing!

V2 UPDATE:

The keyhole on V1 versions was a bit too small, so was enlarged on V2.

**DIMENSIONS (Regular)** | W 35 mm x D 15 mm x H 50 mm

**DIMENSIONS (Small)** | W 30 mm x D 15 mm x H 36 mm

**PRINTING** | 30min

All STL files are already oriented properly.

**Infill:** 20%

**Wall line count:** 2

**Resolution:** 0.2~0.3mm/layer or less (the bases in the pictures were printed in 0.2mm/layer)

**Build adhesion type:** Brim 4mm

**Supports:** None
