Summary

Two-piece helmet and visor to fit Dummy 13 Armour Head

Toys & Games > Action Figures & Statues

Tags: dummy13

A motorcycle or racing helmet with optional visor. The visor can be opened or closed.

You should be able to print the helmet without support if your bridges are good. It might need a little post processing if you get sagging filament on the inside to ensure a good fit.

I've printed at 173% scale in my photos with -0.1mm horizontal offset (Cura)
